

AFCEN International Conference - Paris 2019

Holyday Inn,

2 Boulevard du Levant, 93167 Noisy Le Grand (PARIS)

Information & registration at : www.afcen.com/en

European and Chinese standards in the field of geotechnical engineering

Technical session - March 26th, 2019 14h00 - 18h00

Objectives of the seminar :

As part of the International AFCEN Codes Conference, this half day session will present the Eurocodes' philosophy, focusing on Eurocodes 7 and 8 part 5, together with the Chinese standards in the field of geotechnical engineering.

By attending this meeting, participants will have a unique opportunity to catch the similarities and differences between European and Chinese geotechnical standards.

A final debate will make the link with the design practice for the nuclear facilities.

Lectures will be given by :

Dr Andrew BOND : UK delegate and chairman of the Eurocode 7 committee;

Philippe BISCH : French delegate and chairman of the Eurocode 8 committee;

Hongwei SUN : Chairman of the Geotechnical Engineering Committee of the Beijing Civil Engineering Society.

Full information about the AFCEN conference on the [link](#) posted on www.afcen.com
Registration process : <http://events.afcen.com/>

14h00	Andrew Bond: <i>Overview of Structural Eurocodes; a dive into Eurocode 7 in the UK context.</i>
15h00	Philippe Bisch: <i>Seismic design with Eurocode 8; focus on Eurocode 8 part 5 dedicated to seismic design in geotechnical field.</i>
15h45	Break
16h00	Hongwei SUN: <i>Chinese codification of the geotechnical design for both static and seismic aspects.</i>
17h30	<i>Synthesis and conclusions regarding nuclear facilities design.</i>
18h00	End of session
